The Sinister Aims & Focus of The Order of the Sinister Moon (2022-02-17 19:49)

For those inclined to accept guidance and associate with the Sinister Moon we wish to state our main aims:

- 1) The creation of a new evolved being described in Myattian terms as Homo Sol, Homo Galacticus and above all else Ubermensch. Gods amongst mere mortals. Those who would be apt to wear the title Aryan which is Sanskrit for "noble blood".
- 2) The creation and establishment of a new darkly numinous society controlled by the Satanic elite of the Sinister Moon. This could be aptly called a Dark Imperium or Fourth Reich. Or Cosmic Reich.
- 3) The physical manifestation on this Earth planet of the Dark Immortals and to manifest directly or indirectly VINDEX.
- 4) The infiltration and disruption of Nazarene-Magian groups. The disruption and subversion of leftist organizations such as ANTIFA, Cultural Marxist groups, leftist clubs and social groups. And the disruption and subversion of Nazarene groups. As well as infiltrating and directing groups pseudo-Satanist groups, Wiccan groups, Neo-Pagan groups, etc. towards the Sinister Moon. Pushing them towards the real genuine dark tradition they seek.
- 5) The downfall and disruption of society as it exists today. Decadent and degenerate.

Und Sturm, brich los! (2022-02-17 22:17)

Primarily Satanism is a way of living. The philosophy of the Sinister Moon is based upon a way of life that is different and more joyful than any other way of life. Indeed it is a superior way of living. One involving triumph of sheer individual will over oneself, one's surroundings and ultimately the fulfillment of one's unique Satanic destiny. Transcending one's humanity to become as they who are beyond the abyss are.

A Satanist is primarily a man of action. Not that of the intellectual, thinker, academic,

philosopher, etc. Primarily Satanism is about deeds not words. Words sometimes follows but these are only a tool. They live a Satanic life. They don't have to talk about it. By their actions, deeds and life itself. One strong action is worth a thousand words. Only the minority can live Satanicly most are suited to the comforts of slavery. A Satanist can and will be in real life what others only dream of, read about in books or watch on screen in films. A Satanist is that 0.01 % person who inspires in others a sort of envy, admiration, awe, fear and respect.

With Satan as our ideal we are also the bringers of wisdom, revolution and liberation. Most often than not the sort of wisdom and knowledge offered by a Satanist is forbidden, and Faustian in nature. It is no exoteric but esoteric. Hidden and secretive. We also stand to help and aid those with our character to become as we are: the true elites. And offer them liberation from the status quo and slavery of religion, morals, laws, and other limits placed upon the individual by the tyrannical state. Whilst most people sleep we are awake and awakened to the truth unlike most who find comfort in lies and illusions.

A Satanist recognizes that our current society is nothing more than the banding together of the weak creating laws and rules to protect themselves from our wrath. And that it is our birth right to rule over the weak masses as the true aristocracy. Our way is not for the majority who are as slaves. Too blind to see the light of Lucifer. A Satanist is society's enemy number one.

The only law of a Satanist is his own individual will and any transgressions should be punished. Only through terror can the strong make themselves heard above the braying asses of the masses. For it is he who is most enlightened which casts the darkest shadow. And thus seen by the Nazarene-Magian trash breed of human as the unenlightened bringer of darkness.

In the moral sense a Satanist is beyond good and evil. Recognizes morality as a human invention and concept. Not as universal. They follow their own individual moral code and live by their own laws. They refused to be restrained or enslaved by the chains of the status quo. In the Nietzschean sense they are amoral. Beyond morality. Only individual judgement is applied. Not that of some moral code that is more suited to Nazareny or such things as Wicca's "and it harms none".

A Satanist engages in combat and war. Finding glory in battle. Whereas most die old and sick and frail the Satanist aims to die a glorious death. And lives each day as it could be his last on Earth. Conquest is never done. They strive forever onwards to more and more. Unlike most people they recognize they have a unique and special destiny to fulfill and live to fulfill it.

They recognize their own limits and seek to break them or go beyond their own limits. Whether this be subconscious lingering of Nazarene morals or anything else that is a spiritual, physical, emotional or otherwise limitation or weakness. They are humble enough to recognize their weaknesses but do not engage in the decadence of self-pity instead aiming to break all weaknesses. As pain is merely weakness leaving the body.

By fearlessly entering the dark and living as Satan himself one comes elevated to the position of knowing Satan. The Dark Gods do not come to those who live a weak, soft and materialistic life. They come to those who live as they live. First one should learn to endure fatigue and hardship. Second the schools of privation, poverty, and trauma. Enduring trials, ordeals and facing your own mortality is part and parcel of this. So are periods where you naturally will become traumatized. But the strong survive and the weak perish. Good riddance to the weak. The things which do not kill us will only hardened us and is via becoming the

most hardened will you stand closest to Satan.

Mercy and pity upon others will lead you astray instead you should be as hard as krupp steel. Swift and ruthless with your enemies. Anyone or anything that stands in your way should be destroyed without mercy or delay. Anything which seeks to hinder your path must be dealt with in said fashion.

Although other brands and flavors of Satanism exists. What we offer is one that is a step above any others. Which are either too weak and soft or too degenerate and de-evolutionary to be useful. This portrait we paint of a Satanist is far beyond the typical Nazarene image of a Devil Worshiper with deranged sexual practices who consumes human flesh and blood. And beyond the image of a Satanist as a mere black magickian or occultist who engages in rituals, armchair philosophy and nothing more such as the pseudo-Satanist. It is a balanced and holistic approach that is superior, harder and tougher than anything else offered up by those forms. Only this form of Satanism is evolutionary beneficial and properly balanced.

Poisoning The Well (2022-02-17 23:11)

The pedophilia element in the O9A has totally bankrupted it. It is very unfortunate to say but indeed the O9A has gone bankrupt. It has also become far too weak and soft to defend itself anymore. The Old Guards have basically disappeared from site and emerge now and again but mostly out of the picture. And there is no longer any real strong masculine leadership within the O9A. Additionally, the NS element of things are inclined to run the other way when confronted with anything pro-O9A. And in essence so many people have become scared the O9A is a merely a honeypot or sexual cult of sorts.

The O9A has never been openly or secretly pedophiles or engaged in pedophilia. See for example the article "Children and the ONA" which states:

*That is, we accord such children – until they reach the age of choice, of maturity – a certain respect, which in practical terms means they are exempt from being considered fair game, a resource. **This naturally excludes us from involvement with certain activities involving children and also means that individuals of certain proclivities, involving children, are regarded by us as dishonourable individuals who most certainly are not of our kind.***

<https://lapisphilosophicus.wordpress.com/children-and-the-ona/>

This means in O9A-speak or terms someone who is a pedophile and engaged in sexual abuse of children would not be considered Sinister kindred or O9A. They'd been seen rightfully as sick twisted individuals who could not control their sexually perverted degenerate urges.

Likewise can one really wade through any O9A texts online or offline without encountering the ideas of the Sinister Feminine? This should make it clear to anyone the O9A has never

been about abusing women or controlling women etc. In fact if anything the O9A is sexist against men.

See such writings as this:[1] <https://lapisphilosophicus.wordpress.com/about-2/women-and-the-ona/>

Which says:

Would I be right in thinking that in practical terms the Rounwytha principle means the Order of Nine Angles puts great emphasis on women?

Yes indeed. We always seem to have more women than men, at least pre-Internet, and certainly still do in our traditional nexions following the Seven Fold Way. Partly because of a knowing of and respect for the natural abilities of certain women, their character; partly because of the Rounwytha ethos that is central to the Order of Nine Angles, past, present and future, and also because our Way demands a genuine, sharing, empathic, and equal partnership between men and women, and because of our acceptance that Sapphism is natural and, to an extent, esoterically important.

Pedophilia is not an image of we want to cultivate pedophilia isn't hard, it isn't tough, it isn't anything in essence but a sickening perversion engaged in by a minority of people. And now due to the minority the O9A majority has been lumped in with pedophiles. Much to the delight of the pathetic anti-fascist and Satanic conspiracy theorist. These pedophile elements are a minority that is only tolerated because the O9A is amoral and places no rules or limits upon individuals.

Let's look at things rationally. Pedophilia does not provide any sort of benefit to the O9A. It brings down more police surveillance and government monitoring. It gives us an image even those who are not pedophiles as being child sex abusers. It doesn't serve any magickal or occult purpose. It doesn't serve any revolutionary purpose. It doesn't aid in creating adepts. All it does is give bad publicity much to the delight of anti-fascists and the media. Likewise the angle of such things as raping women and sexually abusing them. Does not offer anything overall beneficial. It's just the actions of a lone few who cannot control their nature and their urges.

The O9A has likewise become too weak and soft to openly defend itself either. This is due to placing too much emphasis on anarchism, Sinister Feminine, academic study and intellectualism. And indeed the Code of Sinister Honor which many take lightly or openly mock. Instead of the 21 Satanic Points which are far more enlivening. More emphasis should be placed on the 70s-90s O9A and less on the current iteration with it's focus on feminism, academia, anarchism and other soft ideas.

It's indeed lost it's own sense of direction. The O9A has always been about creating new individuals who were the next step in human evolution. As well as creating a Dark Imperium which would lead to Galactic Imperium. It also championed such heresies as National

Socialism. None of which it does any longer.

Due to the influx of misguided and mislead individuals there as been also random killings which have neither benefited the O9A nor anything revolutionary. They have merely been the acts of lone psychotics who credit their attacks to the O9A. If they were genuine Satanic crimes they would not openly state this or openly be O9A. And such victims would be tested. Instead a sort of schizophrenic bloodlust has consumed many individuals who have a death wish.

It will take years to fix the O9A. And return it to what it once was. However, independent nexions such as the Sinister Moon are stepping stones and ideological lighthouses.

The police informant stuff, pedophile stuff, and increasing prevalence of psychotic loners along with the focus on feminizing and making the O9A anarchist has utterly and totally bankrupted the O9A. While such traditions as the Sevenfold Way remain untouchable. If we do not wish to be the occult laughing stock and survive the coming onslaught of the tyrannical state. We had better undergo some changes.

What sort of O9A do you wish to belong to? One full of pedophiles, snitches, sexual perverts and psychotics who kill at random create massive security risks and engage in other deviant behaviors? Are these sorts of behaviors conducive to anything in the end?

What sort of future do you want for the O9A? I assume at this rate it will be overrun by the types of individuals I described and too weak to defend itself. It will then get banned and listed as terrorist and utterly infiltrated and destroyed by the government. And all that will remain is a few writings here and there that will probably be illegal to posses. And we are back at square one again.

Or do we has I promote operate in the underground primarily and recruit very select few individuals to work with. Five people per maximum perhaps. And form new independent nexions which champion strength, courage, discipline, honor, nobility and the brand of Satanism the O9A created in the 70s-90s. With no one except the hanger ons and such being "public members" of the O9A. Of course some figureheads would be necessary no doubt and always will be.

Of course it is now far too late to do any sort of damage control. But forming independent nexions which claim limited or no ties to the O9A whilst carrying on the tradition either generic Satanism, Sevenfold Way & Sinister Tradition, Dreccian tribes, etc. The O9A then would be carried on by these cells or nexions or tribes. And the remaining elements would be free to do as they pleased. And hopefully act as camouflage or cover. These independent cells or nexions or tribes could all belong to a sort of "High Council" where the leaders or high ranking individuals in each sector communicated and decided what next steps to take. In secrecy rather than publicly or openly. As well as intel and intelligence sharing.

There would therefore need to be no revoking of membership, no claims to be a lead organization, no claims to have any members, etc. It would exist purely as a subculture the O9A that is. All these groups would be inspired or influenced by the O9A but not publicly identify as O9A. And could decide in private via meetings or discussions certain things to add or subtract. After some years the outer form of the O9A would continue as it is or get listed there could be a new organization formed that could emerge.

As the O9A would have naturally lived a period of time and died as an organization but

the tenets would still remain to a degree eternal and living. Due to it being a Sinister Tradition and acausal and Aeonic in nature it could operate by any other name. The main thing is carrying on the goals and the tradition.

This I imagine would take a course of 5-10 years. The first year would be organizing and forming these new nexions/tribes/cells. Years 2-4 would mean the creation of new writings, new artforms, and new musick. As well as recruiting as many suitable people as possible. Passing on things via aural tradition internally not openly. Year 5 would mean organizing the leaders of said groups into forming a High Council or internal group. 5-10 would mean the public emergence of a new O9A. Either keeping the name or using another one entirely. They do not necessarily need to operate online or be online either. However some sort of public presence would be useful. However, not needed ultimately as things could move entirely offline. After the new O9A formed then once again things could be arranged offline. Via contacts in publishing companies and meetings etc. Handwritten letters and such. In person meetings. Keeping numbers small.

Meanwhile the outer ONA would just increasing grow more degenerate, more psychotic, more autistic and more influxes of degenerates, deviants and snitches. It'd be an utter chaotic mess of people with zero direction or guidance. With individuals playing power games and other things. The amount of attention these individuals would attract would keep a good deal of monitoring off the backs of these independent groups. It'd be a chaotic unorganized mess of pretenders, frauds, lunatics, etc. Utterly consume itself. And the state itself would crack down on it and net enough arrests to assume it was disbanded.

So a period of 5 years operating in silence whilst re-organizing and writing new MSS. Networking with each other in secrecy. Until we have the numbers and individuals on board to re-emerge. It's necessary to let these types of people consume and destroy themselves and the outer O9A. As the real O9A would survive in private and operate in silence. And once a period of silence and secretive organizing re-emerge in 5-10 years.

There'd be nothing left of the outer ONA due to all the snitching and lunatics and power games. And it being too weak to defend itself. Meanwhile the core O9A would survive in secrecy building and organizing. The government would assume it all died down and they saved the day as well. No doubt the media, government and other types will get bored of the O9A after a period of time. So we re-emerge after the heat has died down and it's sufficiently destroyed itself.

And then return a bit to the old ways. Internal MSS. Aural tradition. Only means of contact via publisher or press. Arranging in person meetings. Handwritten letters and such. Keeping numbers small but selective. That's my idea of restoring the O9A. Basically let the outer O9A burn itself into ashes. Form a network of nexions carrying on one or more Sinister Traditions. Take the best elements from those to form a new O9A. A website or two to announce its new formation would be useful but not necessary. As this network would allow us to find many suitable recruits and pass along things internally anyways.

Why Satanism Does Not Involve Child Abuse (2022-02-18 00:33)

Satanism is an adult path primarily concerned with self-excellence and self-overcoming. Initiation into the Sinister Tradition is not done without consent. It's the acceptance and union with certain dark forces that are hidden or unconscious. However, a conscious decision is made to begin to walk the path. It's not forced without consent.

Abusers of pleasure, children or drugs reveal themselves to have a particular weakness of character. They are swayed by their unconscious desires and controlled by them. They cannot control themselves and naturally reveal by this lack of control a weakness of character. They cannot begin to understand their dark side so it manifests in sickly unnatural ways. They are merely being blown around as if caught in a hurricane or storm by their desires. They are not concerned with self-mastery, self-excellence or a Faustian quest. They are concerned with their own gratification of pleasure solely at any expense. They have psychiatric problems. They are very much sick individuals who cannot control themselves.

Nothing about pedophilia is Satanic. The reason being quite simply Satanism is concerned with Nietzschean self-overcoming, excellence, forbidden wisdom, and overcoming limits. The pedophile elements take this amorality and approach to heresy to try and state that pedophilia is both a heresy and evil hence it is Satanic. However, that may or may not be there is nothing character building, nothing involving evolution upwards and nothing at all useful about pedophilia. Certainly it's nothing to be openly proud of. Abusing children is ultimately not a part of the Sevenfold Way, not a part of the Sinister Tradition and is ultimately un-Satanic.

The myths and conspiracy theories involving Satanic practices by the so-called elites of society are just imaginations from those with a Nazarene mentality. Or those who wish they could engage in such themselves either secretly or openly. Merely at this point it acts as a suitable smear campaign by the left and anti-fascists against the O9A.

A man who abuses a woman reveals himself to be lacking in character. Hating, beating and abusing women sexually or physically isn't how a Satanist would operate. It's more the ethos of a patriarchal bully who being too weak to "bully his bullies" becomes a bully himself. Taking out his frustrations on women. Again revealing they cannot control themselves or their urges when they engage in such acts as rape. Likewise beating children is weak and pathetic. Beating or harming a victim who cannot fight back or isn't mentally mature enough to formulate and make their own decisions is the actions of a weak cowardly individual. An individual who must abuse children and women because they cannot take on people their own size basically.

That is to say for the most part women are off-limits especially by male Satanists and children are completely and totally fully off-limits. Viewing children as potential victims or sexual partners reveals a sickness of character that is not of our Sinister kin. Abuse and sexual abuse of women for no other reason but sport or pleasure as well is likewise sick and weak. The actions of an insecure male who takes out his aggression on innocent victims. Evil is to indeed go beyond due limits. Sickness and weakness is to engage in fetishist acts of abuse for sport either because they cannot control themselves or because they are not ultimately strong enough to fight anyone but women and children.

So once and for all. Child abuse and abuse of random women for sport or pleasure are both un-Satanic and actions befitting sickly weak individuals who cannot face their own

problems or deal with them like an adult or are too physically weak to fight anyone but children and women.

New to Satanism? (2022-02-18 07:25)

Q. What is Satanism?

Satanism is primarily a quest for self-excellence that is mostly solitary. It is dangerous and hard. It involves finding your true Satanic self which is primarily hidden. It involves trials and ordeals which can often make or break you. It involves going beyond limits whether they be moral, legal, social, emotional or physical. It involves proud defiance of subservience. It involves sacrifice and it can indeed involve crime. Satanism is also the means by which we can advance humanity to the next evolutionary step. It is elitist and primarily secretive.

Q. Do you worship the Devil/Satan?

Satanism is not about worshiping anything not even yourself. Satan is both viewed as an archetype of heresy, lawlessness, evil and chaos as well as a particular Dark God who is known as a shapeshifter. Primarily there is no shape or pictorial image of Satan. Certainly not of the horned demon with hooves or as a fallen angel. Shapeless chaos is the closest approximation. Satan is our guide and model for emulation. Satan's only law is total lawlessness.

Q. Does Satanism involve child abuse or cannibalism?

It involves neither both are fictional accounts. These sorts of conspiracy theories date back to as far as Medieval times. Satanism doesn't involve children at all. Neither as initiates nor as victims. If someone abuses a child and credits it to Satan or Satanism etc they generally reveal a lack of awareness and Satanic insight. Such individuals only discredit and smear genuine Satanism.

Q. Does it involve magick and rituals?

In the early stages it can involve this yes but these are just stages in the early development of the Satanist. Who has in essence much bigger fish to fry in due time. That of Internal Magick or the alchemical change process, and Aeonics or causing changes in society and people over large scales of time.

Q. How do I become a Satanist?

By following the Sevenfold Way primarily to adept-ship and beyond. There are other forms and flavors available. The Order of the Sinister Moon offers it's own take on Traditional Satanism based on the Sevenfold Way. Ultimately being a Satanist is a way of life.

Q. How do I join the Order of the Sinister Moon?

Membership is open via contacting Dark Gnosis at darkgnosisofundeath@protonmail.com. Only select individuals who are very gifted and rare are capable of joining/becoming members. Membership is free. There is no membership dues. Primarily involves guidance aurally and working to help us achieve our Sinister Aims.

The Order of the Sinister Moon (2022-02-18 07:39)

Analysis of our Insignia

The skeletal hand reaching towards the sigil of the O9A signifies both desire for Sinister Influence and the influx of the death current. It also represents San La Muerte or the Lord of Death. His days are Monday and Friday; his number is 13. Sacraments to him are brown liquor particularly whiskey, coke and rum, coca leaves and cocaine, marijuana, raw or cooked pork, and tobacco particularly cigars. In some traditions he is known as Cain or the original murderer. In the Hindu tradition he would be recognized as Yamaraja and in Thai Buddhism as Payayom. The sigil of the O9A itself has it's own meaning in the Sinister Tradition but furthermore here means we recognize the O9A as comrades, the influence of the O9A on our person and ideas, and that we keep the Sinister Tradition alive as well as promote and align with the Aeonic goals of the O9A. The new moon represents Satan's mistress Lilith who is the Goddess of Night, mother of all demons and succubi, mistress of nightmares, and is associated with the New Moon. In the Sapphic tradition it represents the Dark Vampress Goddess Baphomet. The blackness itself represents the chaos dragon Tiamat, the acausal, non-being and chaos.

Cosmology

The acausal realm or universe we view as pure chaos. Non-euclidean, with infinite eternal time dimension. In contrast to the causal with it's 1-dimensional time and 3-dimensional space. This Myattian influence is axiomatic and so is the theory of the acausal. We believe that hidden to us is our true self which is the spiritual spark of Satan/Lucifer. The black flames of dark gnosis which dwells within our fleshy shell. By following the tasks we've outlined prior the alchemical change process begins and there is shifting where upon after one traverses the abyss they will be dominated by the acausal instead of the causal. Emerging as a God in flesh body. There is first recognition and living this dark side then there is separation and finally union ultimately transcending both.

Meditation especially void meditation and the four fold breathe technique is employed. As is certain other meditative practices to help this process. As well as visiting the cemetery grounds and scrying with the black mirror. And the invocations of Dark Gods and energies. And of course via chanting the Diabolus and reciting the Satanic Our Father.

New Merchandise Store Out (2022-02-19 18:20)

Via Etsy we have a store selling subversive, sometimes funny, offensive, heretical and anarchic merchandise in the form of pins, stickers, posters, altar cloths and more. Some dishonorable individual flagged our last store either perhaps due to being offended like a moralizing Nazarene or via malice. Either way we cannot and will not be silenced in said fashion: [1]<https://www.etsy.com/ca/shop/SinisterMoonDesigns>

Unfortunately the Sinister Moon Press does not exist anymore. It was too heretical for Lulu and was removed for promoting Nazism and terror. So via the auspices of this temporary outer form we will promote our ideology as such and in like fashion maintain the aural tradition

due to necessity of the path being one unsuitable for the stagnating masses.

There is also a very entertaining audio visual display outlining the Order of the Sinister Moon to some extent on YouTube and Bitchute.

Am posting this PDF here because via the webhost I am using it is encrypted, anonymous and hosted offshore in the Ukraine. Really enjoyed this MSS and had to read it several times to fully grasp the concepts.

Dark Night Of The Soul (2022-02-20 09:26)

This is an old writing from a now defunct project I had in mind.

To quote a recent O9A MSS:

However, for many if not most Baeldracians this Aeonic perspective is of necessity irrelevant or never discovered for having survived many struggles, many conflicts, they are enamoured of, they love, the dialectic, the struggle, the conflict that is or has become their existence and cannot, or believe they cannot, live without it and would rather die than live any other way.

You will experience at some point during the course of your own individual Satanic quest or lack of better words a point where you feel there is no turning back. A point where upon even when you are at your lowest point and suffering that you have come too far to turn back to normal life. That indeed despite the traumas and tragedies of your own life that you know no other way of living. There may be many failed relationships, broken friendships, prison time, facing death and many obstacles to overcome.

There is ultimately no way out for you. Even if it as were you against the World you would still march on. Even if it were marching to your own death. Although there are certainly many pleasures to be experienced as a Satanist and the joy and pride of knowing you live life on the edge and beyond what most people are capable. Not just in terms of evil, crime and terror but in terms of life experience itself. Satanism is hard not easy and will involve personal suffering. Trauma in of and itself is an excellent tool to aid in development of character and overall increasing the physical manifestation of the death currents.

There are only truly a few, selected individuals which exist that are Satanists. That is to say real actual Satanists. You have to ask yourself is this truly what you want? Eventually you will develop to the stage of no turning back. Along the way there will be dilemmas, tragedies, and all sorts of other suffering and ordeals. Satanism does not necessarily bring happiness. But it is not incorrect to say at some stage you evolve beyond normal human emotions. And become more spiritually aware.

The more traumas you experience the more you will shed your humanity and human weakness. For "all that is great is built upon sorrow". Indeed your own sorrow and the sorrows you create. The weak perish and the strong survive. The weak will always be predominant and eminent for that is the mass of humanity. They exist for us as a resource to exploit.

The end goal becoming evolved beyond humanity and like the Dark Gods themselves. If it was an easy task, a safe task and ultimately a pleasurable task everyone would do it. Aiding in their physical manifestation and the ultimate downfall of all.

That's how it is. You are as it were a soldier in a war; your own war. Marching on to the final omega the final harvest. There is no other way for a being like yourself. Your own humanity burned away from trials and ordeals. Years spent living on the edge unlike most people. Engaging in forbidden fruits. Often times you may be hated or infamous as a result. And face coercion from the state to try and force you to be a slave like everyone else. You will be unlike everyone else and have to pretend to be normal to assume a role as a normal human being.

What more exists to say? There will be pain and you will have to pay in blood; your own blood. Take delight in the suffering in an act of Satanic masochism. The glory of pain. And always remember what does not kill make stronger.

And deliver us to evil as well as temptation (2022-02-20 11:28)

This is another older writing of mine.

*Our Father which wert in heaven hallowed be thy name In heaven as it is on Earth.
Give us this day our ecstasy
And deliver us to evil as well as temptation
For we are your kingdom for aeons and aeons.*

It is not mere paranoia anymore to assume that indeed intelligence agencies and police forces are watching, infiltrating, and placing many individuals under surveillance in the realms of Satanism and the far-right. So we cannot totally air out our business or deeds online publicly. However, it is necessary to some point to put forth certain ideas which either inspire others or cause others to join us in our objectives. The prison sentence is sometimes a part of real genuine Satanism as well. Although yes we are a Traditional Satanist nexion we do indeed have our own ideas as well. And this is a discussion of somethings relating to that.

Politically, we do not have a set political ideology so to call us alt-right, far-right, fascist or National Socialist is incorrect. This is not a political group. Due to being amoral and heretical if someone is a National Socialist within our ranks then that is fine. However, our primary objective is the downfall and total destruction of society. Bringing down the Dark Gods. Causing chaos, disruption, mayhem and utterly burning everything to ash. The energy associated with us is one antithetical to human life and human society. We aren't exactly aiming to create adepts necessarily but possession of the human vessel by the forces of darkness as such. That is invocation of the Dark Gods to create in essence a partial physical manifestation.

Although we mentioned this is not a political group it goes without saying that we are not like the general population. Like attracts like. 1) It's primarily whites who are and will be attracted to Satanism/ONA. 2) The Aryan race was selected by the Dark Gods to guide and let the our races and in particular are built for conquest and building civilizations and such. 3) At the same rate the white race is not worth fighting for, dying for, or living for especially in modern times. Nor will the type of new breed be of a human species in essence. The new order built upon of the ashes of the old will be a totalitarian society which exterminates much or all of the human race. 4) National Socialism and Holocaust denial is genuine heresy. 5) The use of National Socialism as an insight role for one who is by nature a leftist/communist or offended by racism etc and likewise the role of a leftist/communist for a National Socialist by nature.

Secondly, if the far-right attracts too much attention or too much investigation then we

will play into their own games. We will use leftism/anarchism as a means to further the destruction of society. Promoting/using forms such as totalitarian Communism and anarchism. Which due to the situation of the West now go totally undetected or monitored. Whilst we agree Capitalism can be considered Magian so can Communism. We are just using their own forms against them to further aid in the destruction of society. So that the sooner it falls the sooner a more darkly numinous civilization be built.

Thirdly, the use of drugs, prostitution, pornography and other things which weaken and sicken society to lead to it's collapse. In addition some of them could be considered "evil", immoral, and blasphemous to Nazarene thinking. There are no moral limits set in place and genuine heresy draws down very powerful energies. Related to the third point but the use of crime as not only a means to an end (money) but as a way of transgressing going beyond moral limits, rules and society itself.

Fourthly, what might be called "generational Satanism" having children and raising them in the Sinister Tradition. Additionally via sex magick being able to produce basically a demon from birth. In some traditions when the mother has inane occult abilities the child will be similarly gifted as well.

Lastly, actual practice of the occult/magick by group or individual context as well as setting/accomplishing physical goals. Such as performance of the Black Mass or if operating solo certain invocations/pathworkings. One must achieve individually a type of "black" gnosis. Or personal knowing of certain acausal entities. The Dark Gods are not mere fairy tales. One can believe it but then that proves one has indeed failed magickally speaking. The use of sex magick and certain sadomasochistic practices as well.

There is more internal to this nexion which cannot be discussed publicly. Essential in our nexion is to operate in secrecy, silence and using "Sinister shapeshifting" ie being the wolf in sheepskin/living out certain roles/etc. Genuine serious commitment is required. In essence keeping everything purely theoretical, academic or intellectual is an exercise for the armchair Satanist. Satanism is criminal socially and spiritually. As well as evil, amoral and heretical. Anything else is in essence chaff.

Mostly we feel that most people reading this will be offended or think we are psychotic or delusional. The individual that feels drawn into our words like a moth to flame is the one we are seeking out. Additionally, due to subject matter of course intelligence agencies and such are interested in what sorts of activities we may be engaged in. Or pondering how many individuals we operate with. If you would like further guidance or association that is what you must be willing to risk. Interrogations, investigations, police raids, etc. You must not only have a Satanic character but a willingness to accept this reality. For what does not kill makes stronger.

Only by journeying through the darkness within us and without can we attain self-divinity and thus fulfil the potentiality of our existence.

The Order of the Sinister Moon's Satanic Creed (2022-02-20 11:46)

1.I affirm Sat an whose word is chaos. And I do reject Y eshua the deceiver and all his works.

2.All my works shall do glory to the name of Satan and the Dark Gods.

3.Let my bo dy be a vessel for CHAOS.

4.No guilt sha ll bind me; no thought restrict.

5.I believe in the fight and in bringing down the Day of Wrath

6.I believe in the law of t he new aeon which is sacrifice and the letting of blood for which I shed no tears for I give thanks to my prince Satan. And if necessary will spill my own blood for it's manifestation!

7.I believe in proud defiance that the weak deserve to perish and thus I do reject weakness, pity , and cowardice. I reject t he shackles which keeps the weak enslaved.

8.I believe in discipline and loyalty t o the cause – which is in manifesting terror, chaos, horrors, and destruction wherever I may go for the coming of the new aeon.

9.I believe in no law besides the law of personal judgment and will champion whatever is heretical. No laws or limits shall restrict my defiance of the old order. My only desire is the downfall of all!

The Satanism of the Order of the Sinister Moon in Sinister Context & O9A Influence (2022-02-20 12:16)

Satanism and the Sinister does involve honor – and death before dishonor, a causal empathy, Aeonics, Satan, the concept of a Dark Goddess, sacrifice, promoting heresy , hardcore hate and ultra-violence. As well as blasphemy as the Nazarene sickness still pervades. Especially within prisons they try to indoctrinate you with it in there. So you won't go back to crime and lawlessness. A lot of pseudo-Satanism pervades as well.

I am and am not a National Socialist whilst I still promote it because I hate and detest the lying Magian and their lie of the Holocaust at heart but feel the white race as de-evolved from Aryan. And also via my travels and living abroad in Southeast Asia and other travels I learned to understand and accept other races. I

think most whites are weak and racially psychotic. So let them all die and rot. It's survival of the fittest.

Some Satanic groups may exist to award titles and prestige undeserving. For people with nothing to their name. No deeds. No actions. Most of the time they aren't even Satanists really.

Magick and rituals may or may not be a part of Satanism. Because in essence an outlaw or criminal is more of a Satanist than any dress up pretender wearing makeup like a woman, wearing fake plastic fangs or whatever , etc. More than a black metal subculture although black metal does sometimes capture the essence of Satanism.

It does involve Black Masses. Sacrifice but those sacrificed are a particular type of individual whose character reveals them to be rotten. Someone who every one would say had it coming to them. That no one would miss. It also acts a sort of ancient Pagan justice. The individual would be tested. It's not murder for sport or pleasure. Another form of sacrifice is in times of

war to dedicate ones fallen enemy as a sacrifice to the Goddess of Night and Blood. Satanism involves ordeals and trials. Self-overcoming. Primarily a Faustian and Promethean quest to accomplish one's individual and unique destiny

Also Satanism postulates a type of energy that exists which is chaotic and this chaotic energy is what entities such as Satan are composed of. Via the consciousness and unconsciousness they come into the minds of humans as archetypes such as Satan an archetype of heresy, rebellion, chaos, lawlessness and the Promethean spirit.

What there is not is subservience and following authority. Or dark mandates. Guidance or joining a particular Satanic temple can be useful. However, not if it is to seek out friends, lovers, and comradeship. You should maintain a detached judgement around anyone no matter how respected. Especially when it comes to telling you what to do. In any Satanic group it is true there is only one or two real Satanists.

In the path of Order of the Sinister Moon magick is used and practiced by those who feel it necessary. For a period of time. The focus is on self-development and influencing society. Bringing down powerful energies which will overthrow the existing order.

Out of chaos and nothingness everything came and will return.

Although many will lack it. Rituals both solo and Ceremonial are used. Ultimately living Satanically is more important than ritual either ceremonial or hermetic.

Moving past that stage or during there is the practice of Insight Roles. Either for character building or for a purpose of aiding in the overthrow of society. To create a darkly numinous imperium capable of great conquest and exploration. And to further evolve humanity upwards. Ultimately this is a noble and honorable goal. Perhaps it could be achieved peacefully if the System wasn't so tyrannically opposed to it. And instead interested in imposing not only the rule of law, the crushing weight of debt and usury, but basically seeking their own aims where Nazarene-Magian ideals dominate. Whether or not this is at the expense of the white race is debatable. But there is a great deal of evidence to suggest if it wasn't why is such things as Holocaust Denial illegal? Remember when that worked out for

humanity? We had such glorious times as the inquisition, salem witch hunts, the dark ages, etc. What else were people not allowed to question? Whether or not the Earth was flat. In either case the fact it is irrelevant if they are or aren't.

Satanists are the true elites. Not in the sense of outlandish conspiracy theories. But in the sense of being more evolved. Pride is a trait of Satan and should be cultivated. A lack of confidence, lack of belief, lack of will, etc. are serve to enervate and lead to inaction. Inaction leads to slavery. Slavery leads to being like everyone else. Or a victim or pawn. While a Satanist can indeed fall victim or prey to others if they don't overcome it or learn from it and it destroys them then it revealed they had a weakness of character. Good riddance.

Nature itself is very amoral and cruel. Even forces such as the weather can be very destructive. Fate itself is often cruel and amoral. There is no ultimate reason behind human misery and suffering. It just is. However, having a soft heart for pain, misery , suffering and such contaminates the spirit. It makes you like a Nazarene. Who tr eats everyone equal, loves everybody even his enemies, lets himself get beaten and shrugs it off, lets others make a mockery of them, is afraid to ever transgress or go beyond limits.

A rent will one day open in our space-time or Cosmos where upon there will flood energies that people say should not be or exist. Forces which are very dark and chaotic. And they will ultimately consume the Cosmos itself.

Ultimately there is no way for any government, any individual, or anyone or anything to stop the eventual manifestation of the Dark Gods and chaos itself upon this Earth planet. There is no way to make it illegal it is impossible. There is no weapon to combat it. No defense. No shelter.

Perhaps it will lead to establishing a more darkly numinous Imperium. Either way there will much blood spilled on that day. Destruction. Chaos. T error . Wars. Nothing to stop or slow it all

down. And for this we should shed no tears but give thanks to our prince whose word is Chaos.

Evolving to become like them those who lurk beyond the edges of the consciousness and seep through ripples in space-time. Interdimensional alienic beings who are Chaos. Able to travel over vast distances of space and in the astral state as well. However, humans can

indeed traverse the astral state without having any real empathy for the acausal. The concept of lucid dreams are merely astral projection. Sometimes they can enter our dreams and influence us or prey upon us as Vampires.

The final stage after entering the abyss and emerging on the other side victorious. And even before then. It is to establish and draw down those forces and energies and beings. However, it is doubtful if ever again we will see anything like the Third Reich arise. By most people's virtue and character. Society is falling down more everyday. Human nature is increasingly rotten. Another War perhaps is needed. Never having seen War personally. I know it has horrors.

However, military service and war breeds a certain type of character unlike any other. A willingness to fight for the person beside you for a common cause that is greater than one's own life.

Most Wars now are small conflicts and not for the good of the West. But for the good of Globalists and other enterprising politicians and capitalists. This is no reflection upon soldiers. A war veteran is worth more than a pacifist.

All this goes to say that Satanism is not dressup, not make believe, not pretend. It does sometimes involve crime. It does involve heresy, rebellion and transgression. It does sometimes involve blasphemy. It's scope is beyond the minds of those who dream up fantasies about it. They cannot comprehend it because they are sick and weak in character. It isn't the safe, harmless, and weak forms offered by Michael Ford, E.A. Koetting, Anton LaVey, etc.

Morally we have no qualms with these individuals using people for money, sex, power, etc. However, I certainly do those whose sole motivation is money, power, sex, etc. as very dishonorable and have seen them engage in dirty underhanded tactics employed primarily by those of the Magian ethos.

A prison sentence can teach you much about things insofar as it is not a long duration. You learn what it is like to not be free. You learn what is important in life. You have nothing to focus

on but your dreams. And avoiding violence at the hands of others or dishing it out. You learn a

certain amount of respect and code of behavior.

In summary , you could say Satanism is about initially rebelling or questioning the prevalent orthodox. Which for most people is Christianity or Nazareny . In the form I offer there is a period of magick and exploring the occult. And forming perhaps a group to enact Ceremonial Magick and taking a lover with an interest in Satanism and Magick. But ultimately it is a solo lone quest for self-excellence and self-overcoming. And influencing society with ideas that are forbidden so that perhaps some day something great can be built again and the human race can evolve upwards instead of downwards.

Satanism is only for a select few or elite. The rest can find solace in playing pretend, being a fraud, being soft, being safe and comfortable. And while wealth, power , sex, etc. are not off limits and nothing is in essence off limits it reveals a sort of character to be merely obsessed with those things. Nothing should be an obsession or fetish for a Satanist.

Surrounding yourself with mediocre sycophants

and other losers does you no good. The only purpose is taking any friends or lovers is for mutual self-development with a sort of shared understanding and not fully trusting even said elements if they are not our Sinister kin or sympathizers or for the benefit of spreading Chaos. Anything else is not per se weak but

other people who do not live and think like you and most won't will hold back your progress. Enervate. Sicken. Weaken.

Attempting to make it easier for yourself or others is what it is; it means failure. It's too hard. Too much. However, neither should you blindly follow another person like a puppet. Never love anything so much you cannot see it die. You should always remain detached logical clear-headed but not without any sense of emotion. It should be emotions focused inward not outward to others. Focused entirely on yourself and your own quest. Aiming mostly in secret to influence society and others to become like you. In a certain way it becomes then a living tradition. But it can never even be something popular or widespread by virtue of it being Satanism.

It does not matter if you think you are good enough or not.

Lacking confidence, lacking pride,

lacking dreams of the fantastic and unimaginable ambitions will lead you back to the path of slavery and inaction. It's far better to try and die in the process than submit. No one should submit to life circumstances no matter how hard, how difficult, how tragic, and how painful. There is never any rest. Sometimes periods of reflection are needed. Sometimes words have to be said or written. But this itself is just a phase not a permanent thing. Even when one has gone beyond the stage of adept. You must maintain a belief in yourself and certain amount of pride and elitism. And be well aware this is a mostly solitary journey for only those of a certain character. Most of you would be happier suited to the weak and pretend clownish antics of doing rituals to become werewolves or other absurd notions.

While I believe there are other interdimensional beings and perhaps Godforms which exist. Satan as a shapeless invisible entity of chaos with a bride the Goddess of Night is very real. It does not fit with the image of devil worship, the image of the conspiracy theorist or journalist. But that is in essence the reality of the situation.

And if some individual kills random people and blames it on Satan or possession they either psychotic or lying. Or unable to take responsibility for their actions. Whilst such actions should never be condemned morally and nor should acts of terror. The true purpose and usefulness of it should be questioned. If it served to build character and/or served to further the breakdown of society or establishment of a darkly numinous society then yes. Otherwise it's just the actions of psychotics, lunatics, and human predators.

Quod erat demonstrandum,

9 Satanic Aphorisms (2022-02-20 12:23)

9 Satanic Aphorisms

1. Mercy is for the weak.

2. Hate makes you great.

3. Violence solves everything.

4. Terror makes you heard. One single action of violence is worth a thousand words.

5. As in Nature
the strong should rule the weak, as a right owed to their superiority.

6. A Satanist should seek to build a totalitarian fascist dictatorship where the weak majority are led by a strong majority. Communism and Nazareny are anti-evolutionary philosophies for weaklings.

7. Morality is a human construct meant to enslave the strong.

8. Kill or be killed. Blood makes the grass grow.

9. All sins led to happiness.

Lead Us to Temptation and Deliver Us to Evil (2022-02-20 12:25)

There is no sort of moral code or morality in Satanism. Morality is a human construct that is not universal engineered by those of the Nazarene-Magian breed to enslave the strong. A Satanist accepts no authority or law only his or her own individual judgment and authority. Not even the authority of Satan himself – Satan is certainly not worshipped in real Satanism. Y our path is to Godhood not of that of the slave or servant. All that is sinful to the Nazarene leads to pleasure. Give in to temptation and to evil. Whether presented with two courses of option always chose the darker one.

Violence needs no definition.

When someone seeks to bully, intimidate you, force you, or control you dish out violence. If you go into any fight willing to die you will emerge the victor. For only cowards and weaklings choose the path of the pacifist. Make war not peace. Combat separates the sheep from the wolves. Crush your enemies do not have mercy upon them. Mercy gives them time to become like a poisonous snake and grow steadily more venomous until they strike. Do not forgive trespasses against your person not now not ever. Nor forget about them. Even if this leads to your own demise and death. For a Satanist would rather die

fighting than lay down his head upon the chopping block like most cowards. It's kill or be killed.

Terror is something that should be cultivated and championed. One single act of terror stands the test of time beyond any work of art. For it's stated in the 21 Satanic Points "forge not works of art but swords of death for therein lies great art". He who stands atop the highest pyramid of skulls can see the furthest. And come as a reaper for thus you will sow. Always seek to be a terror to the Nazarene-Magian.

Hate and detest your enemy . Do not love them. Do not turn the other cheek. Do not lay down and submit to them. If you must die then die fighting. Die a death befitting a Satanist. Don't seek to grow old, weak and sick. Even if this results in great tragedy, privation, suffering and your own demise.

A Satanist should seek to build a totalitarian fascist society ruled by the strong. Communism and Socialism are for the weak and of the Nazarene-Magian ethos. They are only useful for pushing society into collapse further . They seek to merely enslave the strong and champion weakness and the weakling.

Wherever there are laws there we will be transgressing them. Whenever there is limits placed there you will see us breaking boundaries and passing them. Whatever is heretical or off-limits we will defy and boldly champion. All that is sick, weak, and enervating we detest. We do not bend our knee for any authority certainly not that of society. Social norms and the status quo is for the weak majority . We conquer, we destroy and we create. We inspire others through our words and deeds. We live as lions when most live as sheep. A Satanist is dangerous in real life and a beast of prey. We are the spawn of chaos.

Self-Initiation into Satanism of the Sinister Moon (2022-02-20 12:46)

It's conducive but not necessary to this ritual to at the end defile then burn and dispose of hosts obtained from a Nazarene place of worship. You should have a large enough table or altar for a quartz crystal, two black candles or two red ones, graveyard dirt or goofer dust, incense of musk and sulphur to burnt, a large combat or survival knife, a suitable military BDU set which is either all black or a mix of black and another color. You should obtain a flag of the Totenkampf, SS or Third Reich. As well as a SS or Totenkampf pin, patch or armband on your uniform. There should be a black altar cloth used or one that is all black with an inverted pentagram. A suitable chalice in which contains either red wine or Tennessee whiskey. Ensure you have fasted and not slept for 24 hours prior to the ritual or at least keep it to a minimum and that you have taken a ritual bath after which you can anoint yourself with civit oil if desired. And this ritual should take place after sunset on the night of a full moon. A piece of parchment paper with the sigil of Satan/Lucifer enscribed on it. And a tin bowl.

1. Begin by lighting the black candles and state audibly: "in the name of Satan and the Dark Gods I the spawn of chaos light the fire and call them who are beyond the cosmos back to this Earth planet"

2. Vibrate the Diabolus and then recite the Satanic Our Father. (See Black Book of Satan for Chants)

3. Recite our Satanic Creed from memory:

1.I affirm Satan whose word is chaos. And I do reject Yeshua the deceiver and all his works.

2.All my works shall do glory to the name of Satan and the Dark Gods.

3.Let my body be a vessel for CHAOS.

4.No guilt shall bind me; no thought restrict.

5.I believe in the fight and in bringing down the Day of Wrath

6.I believe in the law of the new aeon which is sacrifice and the letting of blood for which I shed no tears for I give thanks to my prince Satan. And if necessary will spill my own blood for it's manifestation!

7.I believe in proud defiance that the weak deserve to perish and thus I do reject weakness, pity, and cowardice. I reject the shackles which keeps the weak enslaved.

8.I believe in discipline and loyalty to the cause - which is in manifesting terror, chaos, horrors, and destruction wherever I may go for the coming of the new aeon.

9.I believe in no law besides the law of personal judgment and will champion whatever is heretical. No laws or limits shall restrict my defiance of the old order. My only desire is the downfall of all!

I bind myself word, deed, body and soul to Satan.I do renounce Yeshua the deceiver and all his works.I do affirm Satan whose word is CHAOS.

5. Take the knife and cut your middle finger anoint the sigil with blood and proclaim:

"In the name of the Dark Gods I (your chosen occult name) have dedicated myself blood, body, soul, and mind to Satan whose word is chaos. I am a true son/daughter of wrathful chaos. Dies irae! Dies illa! Solvet saeculum in favilla!" Burn the paper with blood and sigils in the flames of the black candles. Visualize the smoke taking on demonic Sinister forms. Proclaim: "As my

blood burns in the fire so too my soul will be engulfed in the black flames. Let my spirit merge with the Dark Gods as my blood merges with fire. Hail Satan! Hail Lucifer! Satanas venire ave Satanas!"

Acting as a Satanic Lonerwolf (2022-02-20 12:48)

This tract concerns primarily an individual who while being influenced by O9A philosophy is operating without any direct contact with anyone who is O9A and likewise does not belong to any cell/nexion of the O9A. The core

tenets for the Satanic Lonerwolf operative you should take away are: 1) insight roles, 2) physical training, 3) invoking/evoking the Dark

Gods, and 4) spending months alone in wilderness.

Some period of time is necessary to spend in monkhood of sorts. But also living on the razor's edge. Last but not least CULLING and TERROR.

Engaging in intoxication, sex, violence and being an all around bad to the bones motherfucker. Crime is

something that should be experienced by every aspiring Satanist. Violence as well. Additionally,

relating to crime is the idea of making your own money without needing a boss or suitable employer.

Military experience or combat experience is highly important. If you cannot obtain it then you should

emulate the experience as much as possible. There is no other system capable of churning out well

oiled well disciplined killing machines than the military. Along these lines are also physical training

both with weights, running and rucking. These three are all tough and build discipline, character, and

willpower.

Additionally, it is essential to find a suitable heretical form to promote that is conducive to Aeonics.

For this reason I simply and succinctly recommend National Socialism and/or Reichsfolk.

Any form

that is totalitarian fascist in essence is suitable. Likewise infiltrating and subverting leftist and White

Lodge operations. A wolf in sheep's clothing.

The occult and esoteric aspects can be important but they are ultimately not needed overall. Living as

Satan himself — heretical, lawless, rebellious, etc. is enough. However, experiencing the Dark Gods

firsthand can be quite "shock and awe". Trauma, trials, ordeals and suffering all draw them in closer.

As does of course dark sex magick and blood sacrifice.

If you follow this short and brief outline you will be already more Satanic than 99 % of people alive. It's

not about being too bad, it's about you not being bad enough. Vice is virtue. Sin is pleasure. Take

delight in destroying society and pissing off as many people as possible. Yours will be the stuff of

legend and theirs will be another boring life full of boring useless activities that never mattered to begin

with. And whilst we all must die one thing never die's and that's the fame of a dead man's deeds.

Mass of Heresy - Sinister Moon Version (2022-02-20 13:01)

The altar has a black cloth with a bust or image of Adolf Hitler and a copy of Mein Kampf. Black candles and musk incense to used. Behind the altar is a blood banner of the Third Reich. On the altar is a large military style combat knife and a quartz crystal skull, obsidian skull or actual human skull. 1 red and 1 black candle is to be burnt. Militarized harsh music should be played in the background. One should wear a skull mask balaclava or neck gaitor with a black or dark camo BDU.

Proclaim audibly:

I believe that Adolf Hitler was sent by the Dark Gods and that it is the destiny of the Aryan race to lead the other races towards the stars. I acknowledge and reject the myth and lie of the Holocaust. It is my duty from this way forward to act as a

noble and honorable Aryan warrior defending my race and homeland from invasion and the tyranny of the Magian. I will accept only DEATH BEFORE DISHONOR. Sieg Heil! Heil Hitler!

Give the Hiterlian salute. Then state after a moment of silence:

I will remember and carry on the work of those comrades who gave their lives before, during and after our Racial Holy War. Agios o Lucifer!

I defy and would rather die fighting for a noble cause than age and grow sick and weak to recall the glory of what once and yet again will be as promised by our Dark Gods! Agios o Vindex!

I am waiting to drench the world in blood. With severed heads as a gift for my Gods.

Agios o Baphomet! Binan ath Ga wath am!

Recite the Dies Irae and then close the ritual.

Creeping Chaos: The Next Ten Years In Sinister Context (2022-02-20 17:10)

X

- 1) To guide and influence via in the beginning phases online mediums individuals in following our unique approach/brand/flavor of Satanism as it ties in to what we will call the Baeldracian way as recently outlined by Mrs. Stirling.
- 2) To explore and champion other Dark Goddesses of the Sinister Tradition such as Darkat who is identified with Lilith. As well as to offer these as potentially new sinisterly feminine archetypes. And the recruiting of female members.
- 3) To promote new non-patriarchal masculine Satanic archetypes and in doing so create male individuals who are not effeminate but masculine in an overly assertive or aggressive way. This could be symbolized by the archetype of the Barbarian or Viking Warrior. And recognized in individuals such as Adolf Hitler, Alexander The Great and Genghis Khan. And also in individuals such as David Myatt himself.
- 4) To create new physical ordeals based upon special forces selection and tests of physical strength or physical might. Lifting hundreds of pounds. And promoting building a strong, muscular and impressive physique. Without things turning into a sports club. Championing such sports as boxing, mountaineering, jiu-jitsu and muay thai or kickboxing.

5) Championing and promoting culling of others according to the guidelines according to older O9A MSS by Anton Long et al. As well as championing, engineering and inspiring acts of real world terror. Combat, strife and war.

6) Promotion of old O9A tracts such as "Hysteron Proteron", "A Gift for the Prince", "Victims: A Sinister Expose", "Magick With Tears" and the volumes of Hostia and (at least the blasphemy and heresy of) the Black Book of Satan. As well as the 21 Satanic Points.

7) Adding elements from forms/groups with Sinister Potential such as the Misanthropic Luciferian Order, the cults of Santa Muerte and death worship, Tantra and Maha-Kali and Lilith worship.

8) Infiltration of mundane occult groups in particular Wicca, witchcraft covens, and pseudo-Satanist groups both atheistic and theistic to guide individuals to our form of Satanism and to also recruit select individuals. Pushing Wiccan groups towards archetypes of the Sinister Feminine and towards our Dark Goddesses such as the Vampress Baphomet. As well as taking back or engineering Godforms of Lilith and Hecate towards the Sinister. And primarily offering dialectic and opposition to pseudo-Satanic groups. Publicly humiliating them in the process. And exposing them for the moralizing Nazarene trash breed they are. Influencing by Sinister means their members – in particular the new members seeking real genuine evil – towards our sector.

9) Using musical forms such as black metal and infiltrating the black metal scene to promote and champion both NS and genuine Satanism. Creating as it were "black metal kommandos" like in the glory days of Burzum and Mayhem.

10) Forming new NS groups both political and direct resistance to aid in the downfall of society and aiding the energies of the Western Imperium so that a Galactic Imperium can be built. Promoting NS as noble, honorable and beautiful way of life. As well as the championing and reverence of Adolf Hitler. Promoting Holocaust Denial.

11) Using Anarchism as a form to disrupt and sabotage society. Whilst removing the elements of gay rights, racial equality and other egalitarian values. In essence creating a new type of Anarchist who is a natural born outlaw and exemplified by outlaw MC groups. Using criminal means such as drug trafficking and prostitution to further weaken and sicken society as well as a means of making a living in lieu of the 9-5 wageslavery offered by the state.

12) Inspiring others to seek military training and if possible combat. All members without a criminal record or interest in being criminals should aspire to become special forces operators, airborne infantry and mercenaries/soldiers of fortune. As well as obtaining weapons and weapon training. Organizing military-style guerilla warfare and urban ops training camps. Promoting physical ordeals which are adapted from special forces selection involving long distance running, hiking, swimming and physical strength.

13) Formation of in-person Satanic temples which follow the tradition outlined by the Order of the Sinister Moon and the Baeldracian form of Satanism offered by the O9A. Whilst still involving certain tasks from the Sevenfold Way and in the initial stages the use of Hermetic and Ceremonial Rituals or External Magick. As well as ordeals of Internal Magick such as living in the wilderness bereft of human contact for 3-6 months. And aiding Aeonics or the suprapersonal Sinister Aims & Goals of the Sinister Moon as outlined in Blitzkrieg.

14) At the 10-year mark either dissolving the Sinister Moon into leaderless resistance or appointing a suitable candidate to act as Master or Mistress of the Temple.

Satanism of the Order of the Sinister Moon In Baeldracian Context (2022-02-20 19:05)

***This is some personal commentary on a recent written work by a Rachael Stirling:
[1]beyond-exeatic-omega9alpha-v1***

***My first draft was 18 pages long so this is a very trimmed down version! I figured
no one would want to read 18 pages of my jabberings.***

Among the many different and inaccurate perceptions of the esoteric philosophy of Anton Long, presented as that philosophy now is in 133yf (2022 ev) as a specific culture - and as a subculture within existing societies described by the terms O9A and Order of Nine Angles - is that one of its essential and necessary attributes is the individual, whether alone or as part of a nexion, embracing, celebrating, exulting in the strife, and in the chaos that can result from, the dialectic of opposing forces with the chosen side often being considered irrelevant in individual terms, with some associating themselves with O9A culture even asserting that this exeatic living is the essence - the raison d'être - of the O9A and the reality of Nature.

Indeed the Order of the Sinister Moon does assert that same form of Satanism espoused by Anton Long in his written work "The Hard Reality of Satanism". And does assert that Satanists are champions of the heretical. So at this present point in time that means championing National Socialism. Additionally, because we are living in the Western Aeon and were it not for the distortion by the Magian-Nazarene the Third Reich would have indeed won and would go on to create the Galactic Imperium. We are agents of chaos - Satan our prince of darkness his word is CHAOS. We are the spawn of chaos. And genuinely evil. Eventually you want to move beyond crime towards terror and onwards towards influencing society as a whole. Engineering the total downfall and collapse of all such that a darkly numinous society can be built upon the ashes. And we will shed no tears for the blood of the old makes good fertilizer for the seeds of the new. Instead we give praise and thank our prince and doing such deeds glorifies his name.

The essence of the Baeldracian persona is exeatic living often of a personal nature but generally by means of a dialectic of opposites - or cause - usually political, religious, or social, with the causes of National-Socialism and neo-nazism being the most frequent in the last three decades {3 } although more recently there has been a drift toward environmental causes and anarchism. The exeatic life of a Baeldracian is an acceptance of and a personal immersion in struggle, conflict, danger, adventure, self-overcoming, and living and if necessary dying by the O9A code of kindred honour. If we hypothetically accept the still unproven equation DM=AL {4 } then his active neo-nazi and Jihadi years could be said to be representative of such a type of living.

Primarily our Satanic nexion or cell or flavor etc champions the cause of National Socialism. It does recognize genuine National Socialism as non-racist, but racist. Racism being the belief that there are different human races who all have an equal right to exist. It does deny the myth of the Holocaust. And it does praise and champion individuals such as Adolf Hitler. However, we do indeed support ecofascism and Anarchism. Although if we can be for a moment a racist homophobe – anarchism is full of nigger-loving faggots at present. And no doubt AL/DM is a model of emulation. So too is the Misanthropic Luciferian Order – which was formed in prison by two individuals serving over 5 years for the murder of a homosexual motivated primarily by hate. Who went on to engage in animal sacrifice and planned human sacrifice. And via championing lawlessness, crime, and such formed a still existing outlaw MC group "Werewolf Legion". Likewise they also supported totalitarian fascism as a form. If they were still operating today they would be seen as allies no doubt.

As Anton Long wrote in his 121 Year of Faten text titled Baeldraca, "Our type are those who already possess an embryonic sinister-changeling within themselves or who possess the potential to be able to alchemically create one within themselves: both have to work hard, for many years, to nurture that inner changeling, and give it birth in the acausal darkness within and then let their Baeldraca loose upon this causal world."

This is indeed why I go by the name "Dark Gnosis". It signifies a spiritual albeit dark insight into what could be called the black flames of Lucifer which leads to knowledge of the true self. Leading eventually to as described elsewhere lapis philosophicus via the harsh alchemical change process. During some stage of my Satanic career as it were I sought to become possessed by darkness and nourished myself upon it. My inner darkness has always guided me. The same inner darkness which lead to an awareness of the Dark Gods as very real beings beyond mere archetypes of human consciousness. Being able to manifest both physically and astrally.

In Myatt's Vindex Mythos {5 } Vindex is a particular type of Baeldracian; a person who by conflict and armed force and initially in one particular area restores the way of the clan and tribe and the law of personal honour in place of the abstract impersonal law of the State, and which adherence to the law and justice of honour distinguishes Vindex and his/her followers from many if not most other Baeldracians. For Vindex and his/her followers, as the Waffen-SS did before them, embody καλὸς-κάγαθός: the antithesis of the Magian ethos. {6 }

Indeed we have always had a great disdain for the laws of the state and see most police officers as dishonorable individuals who via underhanded and dirty tactics imprison those who are noble and living for a higher cause. And who are the foot soldiers of the Magian-Nazarene. And we do indeed believe as many have said in death before dishonor. And likewise deal with things without needing to involve the police to settle disputes. Nor do we require protection by police or other armed forces. Laws were created when enough weaklings banded together to form a society to protect themselves from the true elite and the strong.

This learning and personal change also affects some Baeldracians as a result of their experiences, for the Aeon perspective is the painful often traumatic personal learning - the pathei-mathos, the intuition - of many Western combat veterans who have endured, survived, wars and armed conflicts in modern times, from the First and Second World Wars, to Vietnam to Iraq and Afghanistan. {7 } In terms of the hypothetical still unproven equation DM=AL, this is his personal learning and intuition as presented in his philosophy of pathei-mathos and in his new pagan metaphysics. {8 }

I am a former soldier myself but never saw combat. I do hope after a period of time to be able via a foreign military to see combat before my life is over. Many of my friends are war veterans. Unfortunately I did not enlist at a time when deployments were occurring. So cruel fate kept me away from the battlefield where I belonged. I have experienced many great tragedies and sufferings. Many times I have tried by my own hand to end my life so I could cease my own personal suffering. At one point being pronounced clinically dead.

However, for many if not most Baeldracians this Aeonian perspective is of necessity irrelevant or never discovered for having survived many struggles, many conflicts, they are enamoured of, they love, the dialectic, the struggle, the conflict that is or has become their existence and cannot, or believe they cannot, live without it and would rather die than live any other way. {3 } The hyphenated term National-Socialism is used to refer to the "ethical National-Socialism" developed by Myatt in the 1990s and manifest in groups such as Reichsfolk, while the term neo-nazism refers to the ideology which closely follows the National Socialism of Hitler's Germany and which ideology was outlined in Hitler's Mein Kampf. Ethical National-Socialism is not racist and does not support what is known as Social Darwinism, while neo-nazism supports

Social Darwinism, is racist and often homophobic. Some modern neo-nazis are also misogynistic, which Hitler's National Socialism was not.

Indeed ultimately would rather die. As I know no other way of life but this one. And to go back to the slavery most people live in being bound by morals and laws would be what a cowardly weak individual would do. Accept failure and then quit as a result. I believe you have the Third Reich wrong as I do not think Hitler or the Third Reich was racist or necessarily Social Darwinist. The Third Reich was a noble, honorable and beautiful society. The modern misogyny of some individuals is indeed misdirection and misguidance. A true NS type would never abuse his own women or see them as mere sex objects. Women have an important role to play. Not merely just as mothers or wives either.

The beliefs and myths of Omega9Alpha culture include the theory of the acausal and the theory of cyclical Aeons and the associated civilizations; of the distortion of the current Faustian/Thorian Aeon by the Magian ethos; {6 } the way of clans and tribes in preference to modern city-centric nations and States; of a warrior named Vindex who will establish a new type of civilization; and the mythos of the Dark Gods, who/which can be perceived as either archetypes of our psyche and our 'collective unconscious' or as living often shapeshifting entities from the acausal dimensions who can be manifest in, or brought into our causal Space-Time through nexions and sorcery, one of which entities is Baphomet who is perceived as a female being to whom human sacrifices were made in the past.

Do indeed believe in the distortion by the Magian and use of engineered forms such as Communism and Nazareny. Primarily am rural based myself and grew up in a rural locale. However, it is far too boring for me I prefer cities! I view the Dark Immortals as living shapeshifting entities from the acausal realms whom can indeed manifest via these sectors. And have encountered alienic beings which can only be described as acausal. Whilst fully awake and not under any sort of intoxication. They are very real.

One of the most distinctive features of $\omega 9\alpha$ culture is the Longusian 'principle of the authority of individual judgment' which means that the ultimate authority is the individual and that each individual or nexion who consider themselves part of $\omega 9\alpha$ culture can (i) accept or

reject or freely interpret the writings of Anton Long, and accept or reject or freely interpret the writings of others who consider themselves part of ω9α culture; (ii) develop, change, adapt or evolve in whole or in part aspects of ω9α subculture, such as in the Seven Fold Way an Insight Role or a recommended ceremonial ritual; and (iii) that ω9α culture has no leader, no hierarchy, no outer (or inner) 'representative', no council, no 'old guard', no membership, no individual or nexion who or which can make pronouncements about or declare what is or is not correct, no 'official' or 'genuine' ω9α culture or subculture, no 'heresy', no proscription of individuals or nexions, and no awarding by anyone of some title or magickal grade to any person.

On (i) would say I feel the same about my own writings they are all copyleft and can be used or discarded as needed. (ii) Indeed have been trying to do this myself for reasons unknown to me. Just feel influenced or guided to do it by forces beyond my comprehension. (iii) This is how it should be and should remain.

Will leave off with a final quote from that written work which needs no further comment IMO.

The Baeldracians of the Drecc/Niner ω9α subculture sometimes form and have in the past formed their own nexions/cells/chapters which identify with or which are influenced by some or all aspects of ω9α culture and which, given the ω9α 'principle of the authority of individual judgment', means (i) they may have their own unique interpretations of ω9α culture or aspects of ω9α culture and may reject or not identify with some aspects of ω9α culture, and (ii) they may or may not describe themselves as O9A or whatever, but all of which manifestations are autonomous, with a nexion consisting of one person, or a couple, or a family, or a group of any size, and if such a nexion recruits people the recruits are or may be considered to be "members" of that nexion/cell/chapter. As such, they are not "members" of the O9A which being a culture cannot have members, and which also cannot have a leader or a hierarchy, although such Baeldracian nexions/cells/chapters can and do have members, a leader and a hierarchy. In the past and currently some autonomous Baeldracian nexions have described themselves as National Socialist which ω9α culture is not, composed at is of various subcultures and given that the ω9α code of kindred-honour applies to all ω9α folk irrespective of gender, ethnicity, nationality, perceived social/educational status, and sexual preference.

Beautifully stated. Overall very excellent article and very illuminating and insightful. Look forward to reading more of your articles in due time.

Lilith Worship (2022-02-21 10:20)

Lilith also known as Darkat in the Sinister Tradition is the queen of the night. A dark goddess who is the mother of succubi. In essence sexual Vampires whom prey upon men in the dreaming or Astral state. Collecting semen to be impregnated by to spawn more demons. I

believe the best time for any conjuring is 12am to 4am. Between those times. But I particularly believe it is important to perform the following ritual prior to sleep. It is possible to commune with Lilith for this you should have a darkened room with an Altar with a black cloth. Candles of red and black. Burn Incense of sandalwood and sulphur. First chant the Diabolus ie Dies Irae then say the Satanic our father. Vibrate Agios o Baohomet 3 times and then vibrate the name Darkat. Offer a prayer of devotion to Lilith such and ask her to come to you. You should praise her but firmly command her presence.

Lilith can appear as a red haired child or a naked adult woman with a blood stained mouth with long sharp incisors and wings of a bat. Or an old hag. She is very much whore and crone. Her sexual promiscuity is part and parcel of this Dark Goddess. And only judgemental Nazarenes or those with sexual hangups would criticize this. Just as rituals to Baphomet may be more effective via means of Sapphic Sorcery I suspect due to her nature as a predator of men this ritual is more effective for heterosexual males.

I do not necessarily view Lilith who is the dark queen of the night and mother of succubus and other demons in the way the Misanthropic Luciferian Order does. This is from personal experience. Individual experience can and will differ in some circumstances. Hers is birthing demons and non-monogamy.

Autohagiography: Confessions of Dark Gnosis (2022-02-21 10:27)

I first became aware of the occult and National Socialism in tandem at the tender age of 15. Whilst of course I stumbled upon chaos magic, Crowley, pseudo-Satanism, etc I found them all to be lacking in many regards. Accidentally I stumbled upon the old nineangles tripod site. This was something genuinely evil they had writings detailing human sacrifice. And suggested victims being pesky interfering Nazarenes, investigative journalists, white magicians, police officers, etc. At first was shocked but was drawn in as I had begun to reject Nazareny but still desired spiritual nourishment.

Also around the age of 15 I began to reject the myth of the Holocaust, read and studied

William Pierce, The Turner Diaries and Hunter. Becoming a hard as Krupp steel fascist by the age of 18. I remember arguments with teachers over evolution and biology of human races. And likewise arguments for their disgusting enforcement of school prayer and other disgusting Nazarene activities. Such as attending church services and frequent intrusions into the classroom by priests. Being forced to study the lie of the Holocaust and watch what can only be called total melodramatic drivel Holocaust films.

It was after the age of 18. I began to study Myatt's NS writings. And my activities were noticed much to my joy by the ONA. However, I was too shy and lacked confidence to reach out. So as an insight role I decided to go from bookish introvert to become a supplier of drugs. I started frequenting bars and clubs. Enjoying parties. Taking intoxicants and selling them. I didn't tell my lover why I changed. It destroyed my relationship. She sought out

another man whilst we were still together. So reading Anton Long's experience of brothels and prostitution I sought out numerous call girls in vengeance. I was also enjoying studying black magick and practicing external magick. My lover at the time had become pregnant with our child. Unbeknownst to me I cursed her to death and she had a still born in lieu of death. As if the Dark Goddess I chose for the right had preferred an infant as offering.

We of course split up shortly after. Due to my Sinister influence she became anti-Zionist and married an Islamic fellow. They held protests against Israel together on campus with other Muslims. Shortly after I sought out a particular ONA nexion to join. A hand reached out and my fate was sealed. I flyer around this time for a particular far right group on campus. But dropped out shortly after inspired by Myatt to pursue the Sinister.

Around my early 20s I had decided had enough of living as a criminal or outlaw. And took two Insight roles.

One as a Communist dissident to build character after a long time spent as a National Socialist. And one in the military to obtain training and to live opposite to the way of a criminal who was disobedient to authority. Some time passed I spent time engaged in a sort of personal monkhood. In the Hindu tradition whilst still maintaining Satanic beliefs. I studied the Bhagavad-gita and the Vedas. Prayed to Visnu. Ate vegetarian. Avoided intoxicants and maintained celibacy. I also due to a deep depression decided to some traveling abroad overseas. And enjoyed soaking up a foreign culture. I have fond memories of the hospitality of these people. Despite it being in a Communist country deemed I believe still a rogue nation by the United States.

Eventually due to my involvement with the Sinister I was investigated and discharged from the military due to suspected and alleged involvement in National Socialism and various NS groups. This was unfortunate as I desired to be special forces. I spent a few years as light infantry. Never saw combat unfortunately. Was well respected and regarded by my peers even to this day. Later a particular nexion I attempted to start netted me my computers and phones being seized by the police. Charging me with hate speech and promoting genocide. Due to my refusal to become a police informant or snitch.

Over the years I believed fitness and physical strength as well as building an aesthetically pleasing Aryan physique was important and part and parcel of my quest. In my teens I was chubby so I transformed myself from flab and weakness to a beast physically and mentally. Going from a mere 95 lbs Bench Press to 315 lbs.

In the not too distant past I was involved in a relationship with an escort. Unfortunately was taken in by her lies about abuse and men. I am inclined to be a protector type to females often. She preyed upon this character flaw of mine. Or perhaps my good nature. She had been mocking me with other males at a local bar. I went in with an axe demolished a table and threatened their lives. I was looking at 2 years but served 4 months. Unfortunately due to this relationship also lost my sanity and was in and out of psych wards which are just as inhumane as prisons.

In terms of experience directly with the Dark Gods I had a most Satanic spiritual awakening around the age of 21. I have always been psychically aware of the Dark Gods and forces of darkness. And bonded to them. And also been told I'm quite an effective conjurer of demons. I find I do not need to necessarily do ritual magick. People who cross me usually get theirs in life without my influence either magickally or directly. Everything else I suppose

is still ongoing. I am quite the character I assure you. Proud but humble. And finally for the first time in my life achieved a sense of inner peace and happiness. And many have become like a second family to me.

The Black Moon (2022-02-21 10:30)

Lilith is associated with the new moon. The dark energies of a new moon. Lilith can provide the nourishment of darkness. Works of terror and Sinister knowledge. The use of sex magick for calling down darkness. And bloody perversion. The ability to cause sleeping humans to have Nightmares and night terrors. And with shades of the dead. The impregnation of Lilith by Satan. The sexual union symbolizing in essence the birthing of chaos hence the eventual dissolution of the Cosmos. Lilith by tradition is known to mate with men whilst on top of them and giving birth to demons. Within the context of sexual magick the assumption of those two Godforms and with a resulting child or children who would be quite literally chaos spawn.

From birth being forces of darkness in the flesh. This concept can be expanded into the practice of sex magick by a priest and priestess. The priest assuming the role of Satan and the priestess assuming the role of Lilith in general. Undertaking the working during a new moon to either create as stated prior the literal spawn of chaos or for a work of destruction or terror. Orgasm should be delayed and during there should be mutual visualization of the set goal. However, this is not a treatise on sex magick itself but for the creation of either a) children who are possessed by birth or b) a heterosexual working towards a mutual goal of causing terror, chaos or destruction. And for that reason should be undertaken during a new moon. The planet Mars represents the male and the planet Venus the female. Using the traditional method of mutual visualization by both partners. Vibrating according to tradition Agios O Atazoth three times prior to the commencement of the ritual. The ritual must occur on a black moon. Consulting Naos here as a guide is not incorrect. Chanting the Diabolus and saying the Satanic Our Father prior to the ritual is recommended.

Invoking Lilith you will need parchment paper with the sigil of Lilith written upon it. A black altar cloth. A suitable altar. A black mirror. Burn incense to offer to Lilith. Recommended is to praise Lilith and her attributes. Stare into the black mirror asking Lilith to come to you. Praise her qualities. Take a razor or ritual dagger slit a finger on the left hand and anoint the sigil with blood. The male invokes Satan the ritual is much the same except instead of Lilith, Satan is invoked. The Satanic Our Father could be employed.

If the work is to be a work of acausal terror then petrichor must be used or for destruction sulphur. Incense of hazel or alder respectively could be burned in lieu of this. Black and red candles should be the only source of light. It is recommended both participants fast, abstain from sex leading up to the ritual, and go without sleep for at least 24 hours. Either the event is visualized by both partners during sexual trance or the sigil of Nythra is visualized. During the ritual vibrate “Nythra” reaching a trance-like state until climax. If the work is the creation of a child possessed by birth the male simply climaxes inside the female (obviously!).

The more Satanic, Sinister or evil the individuals involved and more advanced spiritually then the more effective the rite.

Importance of Physical Martial Training (2022-02-21 10:32)

I will be honest here I was not always a strong man. I used to weigh a mere 155 lbs and could not bench press 95 lbs for even 1 rep. Fast forward I eventually built up to a 315 lbs bench press for 1 rep. Being muscular, lean and strong is something every man should aspire too. But particularly any male who is either a National Socialist or Satanist or both. Weakness is a leftist trait and Nazarene trait. The weak man is subservient to all. He isn't master of himself. He lives in fear. The best school of knowledge for a young man is that of privation, harshness, discipline and ordeals. Living a weak and soft comfortable life is what the White Lodge has engineered for you. You are expected to work 9-5, pay taxes, have a family with 1-3 kids, get married, get in debt, own a vehicle, own a house, etc.

Have any of you committed yourself to the physical ordeals of the Sevenfold way? Or sought to go beyond or add to them? I will cut you all some slack here. And say alright you do not have weights, you do not have gym access, you do not have training buddies or friends, etc. Every day or if you cannot commit to every day commit to 5 days a week. Wake up at 4 or 5am. Put on any old pair of running shoes and any comfortable clothing. Time yourself and monitor your distance and go for a 2 hour run. Your heart should be pounding in your chest and sweat pouring down your forehead. Whence done with the run go back home and make at least 300-500 total pushups, 300-50 total situps and 30-100 chin ups or pull ups. One day out of the week take a sturdy backpack load it with 45 lbs, a sledgehammer or 5-15 lbs dumbbell, and put on militarized uniform or coveralls and combat boots. Walk for at least 6 hours straight. Bring plenty of water.

Wrathful Chaos (2022-02-21 11:09)

I believe a minority of people are born with some sort of spark of Satan. An attitude of defiance. Whereas the majority will be born happy to be enslaved and never spiritually advance or question anything.

There is two paths we as Satanists have chosen Vamachara or Vāmamārga which is the left hand path. It does not mean we are not spiritual but we are evil spiritual beings. Demonic by nature. Seeking to bring about a day of wrath whereupon the cosmos themselves will be dissolved into ash.

Anything heretical, blasphemous, relating to death worship, predation, lawlessness or living as an outlaw or goes against the status quo is conducive to an increase in the acausal or chaos. I identify chaos a bit differently than in the sense of chaos magick or chaos theory. As something which is caustic to the causal or material world of 3 spatial dimensions and 1 directional time. The acausal is nonlinear and infinite time dimensions.

Living life on the edge being lawless, amoral, and heretical. As well Nietzschean self overcoming and Satanic masochism. Ordeals, trauma, tragedy and trials. The practice of dark sorcery and Vampirism. All of these led to a state of total awareness of Aeonics and one's fate or destiny. As well when once the causal dominated the acausal will dominate. The individual Vampiric practitioner becomes a physical manifestation of the forces of darkness and chaos.

And eventual merging or union with chaos walking in a state of Undeath.

The spiritual spark of Satan leads us to our true self which is hidden via the unconsciousness. Leading to an eventual synthesis. This true self bonds us to the acausal which is beyond the unconsciousness. Passing through the abyss.

Every aeon or yuga has its predominate political, magickal, art, religion, etc They are cyclic and you can compare them to the seasons. Spring to summer to fall to winter.

Which is to say increasing decline, moral decay, destruction, war, etc. Where it reaches an apex resulting in the day of wrath and solvet saeculum in favilla. Aeonie black magick is done to bring about an end to this current aeon and bring about the Day of Wrath. And annihilation of the current order. Contrary to bringing about an end to this aeon are the forces of the White Lodge such as Nazarene and the Magian. Redirecting those energies via blasphemy such as the Black Mass or via championing all that is heretical, evil, destructive, immoral or horrifying. And by making such heretical forms appealing to the masses. Due to the nature of Satanism being unsuitable for the majority 99 % of people. Or by creating new forms which are opposed or distort the Nazarene-Magian influence. Only a minority belong to the Satanic elite. Almost any form can be used. Or at least anything that can or could be destructive or revolutionary.

Infiltrating and subverting groups to change their belief systems in order to radicalize them is another example. Much like a drop of poison in a well. Art and music can play an important role in Aeonics. Making the mundane susceptible via the consciousness or unconsciousness to energies antithetical to the Nazarene-Magian distortion. Sinister manipulation at work.

Sinister Dialectic of the Order of the Sinister Moon (2022-02-21 19:23)

The Order of the Sinister Moon exists to aid the Sinister Dialectic of History. Which is defined as: *the sinister dialectic (often called the sinister dialectic of history) is the name given to Satanic strategy - which is to further our evolution in a sinister way by, for example, (a) the use of Black Magick/sinister presencings to change individuals/events on a significant scale*

over long periods of causal Time; (b) to gain control and influence; (c) the use of Satanic forms and magickal presencings to produce/provoke large scale changes over periods of causal Time; (d) to bring-into-being a New Aeon; (e) to cause and sow disruption and Chaos as a prelude to any or all or none of the foregoing. (Taken from A Brief Glossary of Order of Nine Angles)

Primarily that is why we are unconcerned with if we are popular, acknowledged, have followers, etc. That is also why National Socialism should be understood as a particular form we are using. The relevance of it's morality, ethics, or objectivity is irrelevant. Likewise why we also use anarchism as a form.

Blasphemy is used and employed to counter the still manifesting Nazarene sickness in society and re-direct the energies that Nazarene rituals create. While Nazareny is on the decline the slave morality of the Nazarene is prevelant in such political forms as Cultural Marxism.

Thus the heresy of National Socialism is employed because it stands against this sickness. And because on a simple basic level the Dialectic is concerned primarily with opposition to whatever the status quo is. And currently the status quo is Cultural Marxism. And because National Socialism also stands against the debt-usury, greed, and materialism and degenerate system of capitalism. Unlike the lies of the left that National Socialism or fascism is capitalism run amuck. It is also employed because it represents the Faustian spirit of the Western Aeon. Which is being distorted at present by the energies of the Magian-Nazarene and their foot soldiers the mundanes or normals. The political form or causal form used is irrelevant as long as it is a) Faustian in spirit, b) calls down the energies of the new aeon that of the Galactic Imperium, c) weakens and sickens society via it's degeneracy such that it will lead to it's disruption, chaos and it's eventual destruction either by crime and/or by pushing society into further decline or by causing chaos and disruption and/or is a genuine modern heresy.

At present if we were to look at the system as it exists today. Most people believe in the need for police, the rule of law, the concept of a nation-state and borders, making a living by legal respectable means, paying taxes, egalitarianism, and democracy. Anything which is counter to these is heretical and causes opposition which leads to sowing the seeds of chaos and a manifestation or influx of energies which are conductive to destroying the old order so that a new darkly numinous society can be built upon it's ashes eventually leading to the Galactic Imperium and new aeon. With the eventual manifestation of the Dark Gods upon the earth.

There is no other possible way for the human race to evolve beyond it's current state and in order for us to explore and colonize the regions of outer space and to evolve upwards we must necessarily create a new sort of human being.
